[EPA-R06-OAR-2007-0989; FRL-9960-67-Region 6]

Approval and Promulgation of Implementation Plans; Oklahoma; Revisions to Minor New Source Review Permitting Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Pursuant to the Federal Clean Air Act (CAA or the Act), the Environmental Protection Agency (EPA) is approving severable portions of revisions to the Oklahoma New Source Review (NSR) State Implementation Plan (SIP) submitted by the State of Oklahoma on February 14, 2002 (the February 14, 2002, SIP submittal). This action addresses revisions to the Oklahoma Administrative Code (OAC), Title 252, Chapters 4 and 100, concerning the State's Minor New Source Review air permitting program.

DATES: This rule is effective on **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2007-0989. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, *e.g.*, Confidential Business Information or other information whose disclosure is restricted by statute. SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” means the EPA.

I. Background

The background for this action is discussed in detail in our November 29, 2016, proposal (81 FR 85907). In that document, we proposed to find that the severable portions of the Minor NSR program requirements in OAC 252:4-1 (General Provisions), OAC 252:4-7 (Environmental Permit Process), Appendix C (Permitting Process Summary), OAC 252:100-5 (Registration, Emission Inventory and Annual Operating Fees), OAC 252:100-7 (Permits for Minor Facilities) and Appendix H (De Minimis Facilities) are approvable as meeting CAA requirements for a Minor NSR program. With the exception of OAC 252:100-7 and Appendix H, the above provisions were previously approved as to Oklahoma’s Major NSR program. See 75 FR 72695, November 26, 2010. In this action, the severable Minor NSR provisions provide the necessary procedures and applicable requirements for approvable Minor NSR programs. We did not propose approval of those portions of OAC 252:100-8, Parts 1 and 5 as they apply to Oklahoma’s Minor NSR program; the EPA will address the Minor NSR program aspects of them in a separate action. This action is being taken under section 110 of the Act.

We received one comment on the proposal. The comment and our response to that comment follows below.

II. Response to Comment

Comment: One commenter stated that the EPA cannot approve the changes to the Oklahoma minor source NSR program unless the program ensures that no source which causes or contributes to a violation of any NAAQS can obtain a permit.

Response: We thank the commenter for the comment. We agree that EPA cannot approve a revision to a Minor NSR program SIP that would preclude the permitting authority from preventing the construction or modification of a source whose emissions interfere with the attainment or maintenance of the NAAQS. See 40 CFR 51.160(b). The revisions to Oklahoma's Minor NSR program SIP approved through this action include permitting provisions that require a source to comply with all applicable air pollution rules and prohibit the exceedance of the NAAQS. See OAC 252:100-7-15. EPA's review of the proposed revisions to the Oklahoma Minor NSR program, in accordance with section 110(l) of the CAA, forms the basis for demonstrating noninterference with applicable requirements concerning attainment of the NAAQS and other applicable requirements of the CAA. See the section 110(l) analysis in our proposed approval for this action (81 FR 85907, 85911, November 29, 2016), and in the accompanying Technical Support Document on page 26.

III. Final Action

We are approving the severable portions of revisions to the Oklahoma SIP as proposed in our November 29, 2016 proposal (81 FR 85907). This includes portions of the February 14, 2002, SIP submittal from the State of Oklahoma. Many of these revisions are administrative in nature and modify redundant or incorrect text within the SIP. The revisions also include renumbered or codified portions of the SIP and new sections that incorporate Federal rules. We approve the revisions to the SIP that meet CAA requirements. Specifically, we are approving the

severable portions of revisions to the Oklahoma Minor NSR SIP identified in Table 1 below. As discussed above, many of these provisions were previously approved as part of Oklahoma's Major NSR program. See 75 FR 72695 (November 26, 2010).

IV. Incorporation by Reference

In this rule, we are finalizing regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, we are finalizing the incorporation by reference of the revisions to the Oklahoma regulations as described in the Final Action section above. We have made, and will continue to make, these documents generally available electronically through *www.regulations.gov* and/or in hard copy at the EPA Region 6 office.

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States

prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
